CRYO MAX SCULPT PADS AND LASER

INTRO

The Cryo Max Sculpt PADS AND LASER represents a revolutionary leap in aesthetic technology, combining the power of 10D Maxlipo with Cryotherapy for comprehensive body sculpting and rejuvenation. Designed for professional use, this state-of-the-art device offers safe, efficient, and highly effective treatments tailored to meet the diverse needs of clients seeking non-surgical body contouring solutions.

LIST OF HANDLES

Cryo Max Sculpt Pads

Cryo Max Sculpt Pads with cooling pads is an advanced device for non-invasive fat reduction, skin tightening, and body sculpting. It combines cutting-edge technology to deliver effective and comfortable treatments.

Cryo Max Sculpt Laser

The Laser is an advanced, non-invasive body contouring and fat reduction device designed for professional use. It employs cutting-edge 10D laser technology to target stubborn fat deposits, offering effective and safe body sculpting solutions.

KEY FEATURES

10D Maxlipo Technology

Utilizes cutting-edge laser technology to precisely target and break down stubborn fat deposits, converting them into free fatty acids that are naturally eliminated by the body.

Cryo Pads with Controlled Cooling

Advanced cryotherapy pads deliver targeted cooling to freeze fat cells without damaging surrounding tissues, promoting natural fat removal while tightening and firming the skin.

Non-Invasive and Painless Treatment

Provides a completely pain-free experience without needles, surgery, or downtime, making it a stress-free and safe alternative to traditional fat-reduction procedures.

KEY FEATURES

Customizable and Versatile Settings

Offers tailored treatment options for multiple body areas, such as the abdomen, thighs, arms, back, and chin, with adjustable power and session durations for individual client needs.

Dual Benefits of Fat Reduction and Skin Tightening

Combines fat reduction with skin rejuvenation to enhance overall contouring results, smoothing the skin and reducing the appearance of cellulite.

Safe and Suitable for All Skin Types

Designed to work effectively on diverse skin tones and types, ensuring inclusivity and safety for all clients.

KEY FEATURES

Quick and Visible Results

Delivers noticeable improvements after just a few sessions, boosting client satisfaction and confidence.

Stimulates Natural Metabolism and Circulation

Enhances the body’s natural metabolic processes and improves blood circulation, supporting long-lasting fat reduction and promoting overall skin health.

BENEFITS

NON-SURGICAL AND PAINLESS FAT REDUCTION

Achieve effective fat loss without the risks, pain, or downtime associated with invasive procedures like liposuction, offering a safe and comfortable experience for clients.

IMPROVED SKIN TIGHTENING AND TEXTURE

Combines fat reduction with skin rejuvenation to smooth and firm the treated areas, reducing cellulite and improving overall skin quality.

QUICK AND VISIBLE RESULTS

Clients can see noticeable improvements in body contour and skin texture after just a few sessions, with results improving further over time as the body naturally eliminates fat.

CUSTOMIZED TREATMENT FOR INDIVIDUAL NEEDS

Offers flexibility to target multiple areas of the body with personalized settings, ensuring optimal results tailored to each client’s specific goals and body type.
