

MNRF MACHINE MADE IN KOREA

MNRF MACHINE

INTRO

MNRF (Micro-Needling Radiofrequency) is a skin treatment that combines microneedling with radiofrequency energy to stimulate collagen production, improve skin texture, reduce wrinkles, and treat scars and pigmentation.

Collagen Stimulation

To enhance collagen production, improving skin texture and firmness.

Minimal Downtime

The procedure is minimally invasive, with quick recovery and minimal discomfort.

Versatile Treatment

It effectively treats a wide range of skin concerns, including wrinkles, scars, and pigmentation.

LIST OF HANDLES

FACIAL MNRF HANDLE

The Facial MNRF handle uses microneedles and radiofrequency to stimulate collagen, tighten skin, and improve texture, targeting areas like scars, wrinkles, and pigmentation.

BODY MNRF HANDLE

The Body MNRF handle uses microneedling and RF to tighten skin, reduce cellulite, and improve scars and stretch marks on larger areas.

LIST OF HANDLES

COLD HAMMER

The cold hammer is an essential tool for calming and revitalizing the skin with a gentle, non-invasive approach.

FEATURES:

NANO-MINI

NANO CRYSTAL HEAD

BENEFITS

01 **Enhanced Skin Tightening: MNRF stimulates collagen and elastin production, improving skin elasticity and tightening loose or sagging skin.**

02 **Reduces Wrinkles and Fine Lines: The treatment promotes the regeneration of skin, reducing the appearance of wrinkles and fine lines, providing a more youthful look.**

03 **Minimizes Scars and Stretch Marks: MNRF effectively reduces the appearance of acne scars, surgical scars, and stretch marks by promoting deeper skin regeneration.**

BENEFITS

04 **Improves Skin Texture and Tone:** The treatment helps refine skin texture, smooth rough patches, and even out skin tone, giving the face or body a healthier appearance.

05 **Pore Reduction:** By stimulating collagen production, MNRF tightens pores and minimizes their appearance, leading to a smoother complexion.

06 **Non-Invasive with Minimal Downtime:** MNRF is a minimally invasive procedure, offering effective results with little recovery time and minimal discomfort compared to surgical treatments.
