KEY FEATURES

Multipolar RF Technology

Promotes collagen production and skin tightening. Effectively targets multiple skin layers for improved elasticity and firmness.

Multi-Functional Handles

Designed for face, body, and fractional treatments. Offers versatility to address different areas and skin concerns.

Versatile Applications

Effective for wrinkle reduction, body contouring, and cellulite treatment. Suitable for addressing a wide range of aesthetic concerns.

Versatile Applications

Effective for wrinkle reduction, body contouring, and cellulite treatment. Suitable for addressing a wide range of aesthetic concerns.

BENEFITS

SKIN TIGHTENING AND ANTI-AGING

Stimulates collagen production, reducing wrinkles and improving skin elasticity for a youthful, rejuvenated appearance.

NON-INVASIVE WITH NO DOWNTIME

Offers effective treatments without the need for surgery, allowing clients to resume normal activities immediately after sessions.

VERSATILITY

Can be used for a variety of aesthetic treatments, including facial and body skin tightening, cellulite reduction, and body contouring.

CUSTOMIZABLE AND SAFE

Adjustable energy levels ensure personalized treatments, while built-in safety features protect the skin, ensuring comfort and effectiveness.
